Thandi's skin graft surgery 24 June 2013

Updated about 7 months ago

Thandi was attended to on Monday by wildlife veterinarian Dr William Fowlds of Investec Rhino Lifeline as well as two specialist veterinary surgeons Dr Gerhard Steenkamp and Dr Johan Marais along with a human plastic surgeon Dr Alistair Lamont. It is hoped that the pioneering surgery will answer many unknown questions about the viability of treating poached rhino using grafting techniques which have never been used in a rhino before.

Sharon Walsh She's looking so much better already! You can do this brave girl - soldier on like the true survivor that you are. Hats her unique procedure. x
